

## PE Statement:

Our vision at St Paul's Catholic Primary School for PE is for:

- all children to engage in a range of games, dance and gymnastic opportunities to learn and develop a range of skills
- children to develop teamwork through enjoying sport
- all children to achieve their full potential
- all children to have the opportunity during their time with us to participate in competitive sport.

Every year St Paul's Catholic Primary School receives funding (Sports Premium) from the government in order to raise the profile and standards in PE. This money is allocated to the school based upon the number of pupils on roll in Years 1-6.

Each year the money is used to help the pupils explore and learn new skills and new sports and engage in competitive sports within our school, our local community and our wider Catholic Cluster. It is also used to assist teachers and other staff members teach high quality PE to all pupils through access to professional development opportunities, team teaching with expert coaches and high quality resources.
